O AllyO

MANUFACTURING SUCCESS STORY

# Anixter International Case Study

### Goal

Use AllyO to hire 50 people at one hiring event for one of their warehouses Use AllyO to hire 20 people at one hiring event for another warehouse location

#### Impact

To hire 50 people, AllyO filled

To hire 20 people, AllyO scheduled

## Anixter International Finds Creative Way to Staff Warehouses with AllyO:

Staffing a warehouse requires a lot of planning, marketing, and time. Anixter needed to hire 50 people to staff a warehouse in one location and a month later looked to hire 20 in another location. To ensure hiring success, Anixter used AllyO, an end to end recruiter, to help them prequalify and schedule candidates for the two events. AllyO over delivered and exceeded expectations for both events. For the first hiring event, AllyO scheduled 600 interviews in a span of two weeks, resulting in 56 outstanding offers and additional 40 qualified potential hires. For the second hiring event, AllyO scheduled 114 people for interviews onsite, with 14 of them hired and another 8 through walkins.

"Here at AllyO we pride ourselves in our ability to be agile and to quickly address our customer's needs, focusing on their ultimate success and helping augment their recruitment team. Setting up events for the Anixter team was a rewarding experience that pushed the team and ultimately resulted in helping Anixter reach their hiring goals. That's what we like to do here." said Dana Polyak, Head of Customer Success at AllyO.

## ANIXER

Anixter International is a leading global distributor of Network & Security Solutions, Electrical & Electronic Solutions and Utility Power Solutions. Anixter adds value to the distribution process by providing their customers access to

1) innovative supply chain solutions, 2) over 600,000 products and over \$1.0 billion in inventory,

3) over 300 warehouses/branch locations with approximately 9.0 million square feet of space and
4) locations in over 300 cities in approximately 50 countries.

"Without AllyO's assistance in quickly setting up the events, qualifying and scheduling all the interviews we would not have been able to staff the warehouses per plan."

Matthew Mackin Corporate Director Of Human Resources
